I've hit a deer, what do I do?

- Move the car to the shoulder, turn the ignition off and safely exit the vehicle (if you can).
- Call the police.
- Take pictures of the scene from various angles.
- Make note of the following:
 - Date, time, location and weather conditions
 - Direction you were traveling
 - Responding police department, officer name and badge number
- Stay away from the animal!
- Inspect your vehicle for damage. Check for:
 - Leaking fluids
 - Parts that are damaged and could fall off as you're driving
- Call your Agent. We can help arrange for a tow truck, if necessary.
